## Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro\*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

**Your Rising Sign**

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are quick, witty, and much given to talk and communicating with others. You come across as intelligent, verbal, and perhaps a little on the nervous side. You tend to be changeable, being all things to all people.

# Planet Aspects

## The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

## The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are long-suffering and able to take a lot for the sake of your beliefs and ideals. In this sense, you are very future-oriented. You are intuitive and at home with the psyche and psychological. A sense of the mystic too. You are able to carry ideas and dreams into reality, to make the spirit matter.

*Sun in Pisces*

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

*Moon Trine Sun*

You communicate with consummate skill, and it is stimulating just being with you. Your

high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

*Sun Conjunction Mercury*

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

*Sun Trine Jupiter*

It may be difficult for you to break with convention and head out on your own. Your ambitions may well prosper, but often at the expense of any real independence and freedom. There is a switch effect: you may alternate between very conventional behavior and sudden rebellious lapses. At these times your nonconformity and refusal to go along works against your own best interests, making it difficult to get ahead.

*Sun Square Uranus*

### **The Moon: The Support System**

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

Yours is a passionate life. Intense feelings and strong attachments make for hot times, and you are fiercely loyal, if not sometimes possessive. Secretive, you are not at all superficial but always get to the heart of things. This is good for business and politics. You have a sense for power, wealth, and passion.

*Moon in Scorpio*

A special affinity for old people and for children, plus an innate love of animals, the helpless, and the underdog. An inner vision coupled with the ability to see the "Big" picture often finds you working as a go-between with others.

*Moon Trine Sun*

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your

own. This non-cooperation makes it hard to really get ahead.

*Moon Square Mars*

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

*Moon Conjunction Jupiter*

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

*Moon Trine Saturn*

Your love of groups and the social scene may find you less concerned about you as a person and more interested in relationships of all kinds. Others find you very unselfish and open to sharing and cooperation.

*Moon Opposition Ascendant*

### **The Inner Planets: Mercury and Venus**

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

### **Mercury: The Mind and Communication**

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an intuitive rather than a rational thinker, and psychological thought (the psyche), mysticism and religion are natural. You love poetry and music, tending to feel or sense with your mind the truth of a situation. You are very sympathetic and understanding and have kind thoughts. Compassionate.

*Mercury in Pisces*

You are very bright, and you may be very proud of your mind and all that it can do. You

have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

*Sun Conjunction Mercury*

You are a very forceful speaker and communicate with great enthusiasm. Words just flow out and are always followed by an emotional impact that brings them home to your listeners. You have no trouble putting your feelings into words; in fact, you may have to exercise some control over your tongue, for you are quick to say things and everything you communicate packs a wallop. Things you say mean a lot. You have a great mental drive and lavish great energy on mental pursuits of all kinds. Ideas, words, books, and the like are pursued with great gusto.

*Mercury Conjunction Mars*

You may have trouble with any ideas that are new and different. Your more conservative way of thinking and expressing yourself goes against all that is radical and new. Thoughts and concepts that break with tradition may be a hassle for you -- a constant headache. You prefer that conversations and communications stay on the accepted paths and become irritated when they stray from what you expect. You have a tendency to lose your temper with little warning.

*Mercury Square Uranus*

### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Marriage for convention's sake, if at all, is your motto. Let's not get too personal or emotional. A friend's friend. You love to work for a great cause or purpose, and a better world is the place to be. You appreciate what's fair and democratic, and feel most happy in a group or community.

*Venus in Aquarius*

You don't like rules and prefer to live in disorder rather than submit to outside regulation. Your particular value system manages to bring you into conflict with others, especially those in authority. You seldom appreciate the law in any form and end up challenging it almost every time. You persist in ignoring your responsibilities, and you let your obligations pile up until a confrontation is inevitable. Delinquent.

*Venus Opposition Saturn*

You have the gift of working with others, helping them to sense and feel the unity of life. Your love of the spiritual and the eternal is clear to all who meet you. You love to solve the problems of the world, at least in words and images, and when you tell it, all are enchanted. Dreams and images are your stock and trade.

*Venus Trine Neptune*

You don't want things to get too personal and tend to keep your distance. You even go out of your way to oppose anyone who probes or analyzes to any extent. Conversations turn into arguments around that time. You prefer to gloss over things, gliding along the surface. You don't like what could be beneath the surface and choose to ignore the whole thing. This takes a toll on your desires or passions. Every so often, you turn the whole thing inside out and get totally vulnerable, involved at every level -- more than you bargained for.

*Venus Opposition Pluto*

You love appearances and have a way of pleasing others and coming across as loving and kind.

*Venus Trine Ascendant*

You love to take charge, organize, and manage, whether this be in big business or small. You value practical vision and are not above manipulating a situation to the advantage of everyone involved. You love being the boss.

*Venus Conjunction Midheaven*

### **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have a sense of true understanding and real sacrifice. Dedication to long-range goals, you are future-oriented. Intuitive, you have an inner drive for all that's psychological, religious, and mystical. Artistic too. You are sensitive and can get lost in the clouds on occasion. You are not too logical or practical.

*Mars in Pisces*

Your own forcefulness and drive can make it difficult for others to offer you nourishment and support. You can be too harsh to allow any real sentiment and feeling to flourish. You tend to ignore personal history and any display of emotions.

*Moon Square Mars*

You think and communicate with great force and in a very direct manner. You are quick with words, quick to anger, and often sorry later for the sharp things you say. You have great mental concentration and perseverance. You can articulate your emotions.

*Mercury Conjunction Mars*

You are moved to secure yourself, always digging in. Family and job are your main focus, even at the expense of others. Your emotions tend to conflict with the social and public scene.

*Mars Square Ascendant*

### **Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

An in-fighter, with animal-like instincts when it comes to big business, you are always where the action is most intense. Your penetrating mind gets through the B.S. and straight to the bottom line every time. Exciting to be near, you are an entrepreneur, the big wheel. Sometimes restless, driven.

*Jupiter in Scorpio*

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

*Sun Trine Jupiter*

A born teacher or group leader, counselor or guide. Others find it easy to take direction from you by example alone. You enjoy immersing yourself in a group, solving problems, raising spirits, and so on. People admire your openness and generosity.

*Moon Conjunction Jupiter*

You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

*Jupiter Trine Saturn*

You excel as a social being and should make a career out of your deep-seated interest in other people, partnerships, relationships, and so on. You find yourself through other people.

*Jupiter Opposition Ascendant*

### Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You could be afraid to follow your own heart and to express yourself. Instead, you try to always keep your emotions in control. Children and animals are important in your life. You need to act out and express feelings -- let go, learn to be the center of attention, to be loved. Study nature, natural law. Let it flow.

*Saturn in Leo*

A tireless and disciplined worker, you have a tendency to be serious and to prefer being alone over entering the social scene. You can get the most out of others, get them to work under you. A wisdom that comes from simple needs. Conservative. Careful.

*Moon Trine Saturn*

Enjoying yourself at the expense of actual responsibilities may find you in a sorry way from time to time. It can be hard for you to enjoy yourself and appreciate life, so when you do, you tend to do it up right. This is an ongoing condition.

*Venus Opposition Saturn*

You possess an architect's vision for what needs to be done and how to do it right to make it last -- an expert or true builder. Knowing what tool to use and just how and when to use it. A sense of the right path or dharma. With you, the means and ends are identical.

*Jupiter Trine Saturn*

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

*Saturn Sextile Ascendant*

You are very methodical and practical when it comes to matters of home and family, even at the expense of your career.

*Saturn Opposition Midheaven*

### The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life)

is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have brilliant insights into communications of all kinds -- computers, radio, T.V., the press, writing, and speaking. You are inventive and also have deep insights into research and investigations. You like to relax in conversations, telephone, puzzles, and making connections.

*Uranus in Gemini*

Your need for self-expression and independence may be at the expense of your real growth. You may rebel or find yourself bucking authority figures. It is clear to you that your unconventionality costs you. Part of you wants to conform and go along.

*Sun Square Uranus*

You tend to carry a lot of mental energy and tension, and this can suddenly erupt when you're not kept busy. The way you speak, think, and use your mind can give way to sheer insight and brilliance. At other times you may have very conventional ideas.

*Mercury Square Uranus*

Your insight and vision into what unites people and into the dreams and mystical regions of our mind is profound. You have an enchanting way of working and communicating with others in these matters and with music and the arts. New paths to world or personal unity are a major interest, and you have a very practical sense of how to make your dreams real.

*Uranus Trine Neptune*

### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Relationships are the ideal. Non-discriminating and impersonal in scope, to you all are equal. You are seldom bound by tradition or personal ties and are not domestic. You hold the ideal vision up to the real. You open up in response to others and accept others as yourself.

*Neptune in Libra*

A mother to every animal, child, or needy person. Generous to the extreme with others. Always sensing the unity in life, as in the phrase "the dewdrop slips into the shining sea." You love movies, myths, and long thoughts. No doubt a dreamer... a lover.

*Venus Trine Neptune*

A new and waking vision of unity. A powerful sense of music and a faith in making the ideal a reality--for reality to be as we dreamed it and our dreams to become as real. New concepts in group work. The dewdrop slips into the shining sea.

*Uranus Trine Neptune*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto*

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

*Neptune Trine Midheaven*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and such.

*Pluto in Leo*

You may find yourself craving the superficial and common. You could have a lot of trouble getting past the surface and appreciating your deeply personal issues and sensitive areas. You may tend to ignore your more passionate desires.

*Venus Opposition Pluto*

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

*Neptune Sextile Pluto*

You have strong family, business, or property ties which affect your public image and goals. There may be tricky finances connected with your business or profession. Obligations involving women, research, or detecting are important in your career.

*Pluto Opposition Midheaven*

## Challenges and Abilities

### Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

The public loves you, and it may be hard for you to avoid working with and for others. The way for you involves working with people. Everyone sees you as genuine and giving and tends to trust you on sight. Your ability to counsel others is excellent, and you are always sought out for advice. A born leader, others find it easy to take instructions from you and tend to follow your example. You enjoy helping others solve their problems.

*Venus Conjunction Midheaven 01°49'*

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

*Sun Conjunction Mercury 07°16'*

You are a very forceful speaker and communicate with great enthusiasm. Words just flow out and are always followed by an emotional impact that brings them home to your listeners. Things you say mean a lot. You have a great mental drive and lavish great energy on mental pursuits of all kinds. Ideas, words, books, and the like are pursued with great gusto.

*Mercury Conjunction Mars 07°41'*

### Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You don't want things to get too personal and tend to keep your distance. You even go out of your way to oppose anyone who probes or analyzes to any extent. Conversations turn into arguments around that time. You prefer to gloss over things, gliding along the surface. You don't like what could be beneath the surface and choose to ignore the whole thing. This takes a toll on your desires or passions. Every so often, you turn the whole thing inside out and get totally vulnerable, involved at every level -- more than you bargained for.

*Venus Opposition Pluto 02°49'*

It may be difficult for you to break with convention and head out on your own. Your ambitions may well prosper, but often at the expense of any real independence and freedom. There is a switch effect: you may alternate between very conventional behavior and sudden rebellious lapses. At these times your nonconformity and refusal to go along works against your own best interests, making it difficult to get ahead.

*Sun Square Uranus 03°20'*

*Jupiter Opposition Ascendant 03°28'*

You may have trouble with any ideas that are new and different. Your more conservative way of thinking and expressing yourself goes against all that is radical and new. Thoughts and concepts that break with tradition may be a hassle for you -- a constant headache. You prefer that conversations and communications stay on the accepted paths and become irritated when they stray from what you expect. You have a tendency to lose your temper with little warning.

*Mercury Square Uranus 03°56'*

You are very methodical and practical when it comes to matters of home and family, even at the expense of your career.

*Saturn Opposition Midheaven 04°19'*

You have strong family, business, or property ties which affect your public image and goals. There may be tricky finances connected with your business or profession. Obligations involving women, research, or detecting are important in your career.

*Pluto Opposition Midheaven 04°39'*

You are moved to secure yourself, always digging in. Family and job are your main focus, even at the expense of others. Your emotions tend to conflict with the social and public scene.

*Mars Square Ascendant 05°13'*

You don't like rules and prefer to live in disorder rather than submit to outside regulation. Your particular value system manages to bring you into conflict with others, especially those in authority. You seldom appreciate the law in any form and end up challenging it almost every time. You persist in ignoring your responsibilities, and you let your obligations pile up until a confrontation is inevitable. Delinquent.

*Venus Opposition Saturn 06°09'*

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

*Moon Square Mars 08°38'*

### **Talents and Abilities**

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

*Saturn Sextile Ascendant 01°22'*

You have the gift of working with others, helping them to sense and feel the unity of life. Your love of the spiritual and the eternal is clear to all who meet you. You love to solve the problems of the world, at least in words and images, and when you tell it, all are enchanted. Dreams and images are your stock and trade.

*Venus Trine Neptune 01°24'*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the

birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto 01°26'*

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

*Neptune Trine Midheaven 03°13'*

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

*Moon Trine Saturn 04°47'*

You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

*Jupiter Trine Saturn 04°50'*

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

*Sun Trine Jupiter 06°22'*

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

*Moon Trine Sun 06°25'*

Your insight and vision into what unites people and into the dreams and mystical regions of our mind is profound. You have an enchanting way of working and communicating with others in these matters and with music and the arts. New paths to world or personal unity are a major interest, and you have a very practical sense of how to make your dreams real.

## Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### Your Personal Background

A very active and outgoing youngster, you show an interest in the outside world and social life very early, say around 11-12 years of age. You may at this time move very rapidly into the limelight and find yourself a leader and quite successful in all social activities. Things will just work out for you. This trend will continue and reach a peak when you are about 18-19 years of age, after which time you will lose interest in the social and external and turn more inward. This could result in your being somewhat of a prodigy and achieving a very early career success, only to find yourself less and less involved in it. You may even turn away from everything and choose to start over again to find a new vocation. You may discover yourself spending many years pursuing a more inward and subjective path that could last until you are 30 years of age (or more) at which time you will turn outward once again and take a new direction.

### Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**Sep 09, 2005**1st Pass D> (Age 58 5m)

**Feb 11, 2006**2nd Pass R< (Age 58 11m)

**May 27, 2006**3rd Pass D> (Age 59 2m)

The dates above point to the end of a period of about seven years during which you may have been very inward and self-absorbed -- quiet, subjective years. Information that you have been examining and thinking about will now begin to take shape and prove useful to you. This next period is one of action and embarking on new projects. You will feel more and more confident and outgoing, a sense of confidence that grows stronger with each passing day. Things that may have been in suspended animation for many years will now precipitate and take on structure and shape. These next years are ones in which you should plan to work hard to bring out and give shape to the ideas you have pored over these last 6-7 years. You are beginning to really move forward now and can expect rewards to take an outward career, and social form within a few years. A growing self-confidence. In summary, from this time forward, expect a more confident, outgoing attitude, for you have brought to a close a time of inward examination and learning. A growing sense of direction and self-worth will find you reaching out and establishing yourself.

*Saturn in 02nd Quadrant*

### The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

*Have Water*

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

*Want Earth*

A solid supporter, always gravitating to the heart of things. You may have trouble getting moving, but once rolling, others better watch out. You have a stick-to-itiveness that always finds you in the thick of things, toughing it out.

*Have Fixed*

Not a great starter, you may have trouble initiating things and getting them moving. You may need help from friends or others in learning how to be more aggressive and outgoing.

*Want Cardinal*

Your energies run effectively toward making yourself felt in the material, tangible outer world. You are an "action" person who gains the attention of others and seems to get things moving. The circumstances of your life suggest extroversion.

*Have Angular*

You are inclined to do things from outer necessity rather than for emotional or idealistic reasons. Your theories and mental activities may be fine, but you may lack heart or the fixedness (or the necessary time) to let things ripen.

*Want Succedent*

## **Your Burn Rate**

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost

like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

### **Planets in High Focus**

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

*Jupiter*

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

*Saturn*

You have a high burn rate when it comes to questions of your independence and autonomy. You tend to rebel and buck authority, and this will be a major source of change and adjustment. You will be concerned with issues of freedom and independence far beyond the average person. A passion for inventions, electronics, and the like can also be expected.

*Uranus*

## **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to

others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

Appearances can be deceiving, and here is a case in point. Your appearance (the way you come on) and personality suggest that you may be inward, quiet, and concerned about what other people think. This, in truth, is not the case. Although gentle-mannered, conservative, and sensitive on the outside, you are tough as nails on the inside -- as anyone can testify who gets to know you very well. The fact is that you like attention and have a real need to be at the center of any group. Your more sensitive style hides a strong, aggressive, and quite confident nature. You are at home in a crowd and enjoy the attentions of others. You expect them to come to you. Your mild mannered smoke-screen hides a real tiger. Appearances aside, let's take a look at the real or inner you.

*Geo: Trine Helio: Square*

### **Your Soul Type**

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that

others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

*Square Type*

### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

In a word, it is your emotions and gusto that hold your innermost self together. Your feelings are not just important, they are central to getting to really know you. A strong devotional nature becomes apparent to anyone who takes time to know the real you. All else follows upon this inner drive and energy. The search for a mate, and marriage in particular, are crucial for you. You are driven to unite and find out what togetherness means.

*Mars*

You are driven and passionate in your pursuit of change and inner growth. You possess, at the core, an intensity that burns through superficialities, searching for opportunities to face the truth and render the evident to view. This ceaseless analytical activity, while central to your nature, may be the source of discomfort to others.

*Pluto*

### **The Key to your Personality**

Your sense of discrimination, the ability to discern gradations and differences, is a crucial element in your personality. You relish and cherish things so. Your value system, the way you enjoy and appreciate everything, is a central factor in your make-up.

*Venus*

### **The Personal Hot Spot**

Your mind (all that is mental) mark the single most active factor in your make-up. The key spot in your personality and circumstances is your mind (the world of ideas and communication).

*Mercury*

Your inner self and your goals are the most active facets of your personality. They receive more stress and attention than other areas of your life.

*Sun*

## Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You value fairness in all things and go out of your way to be just. You appreciate others who have been successful and may surround yourself with those in power, be they politicians, officials, what-have-you. Your sense of quality and discrimination may amount to some sort of livelihood for you. You could make your living with your good taste. In addition, you have an innate sense of how to work with and guide others in making decisions. You understand the choices and can spot the right ones.

*Venus Inc Jupiter*

You find it difficult to be spontaneous, to get away from routine and do something different. Others see in you a creature of routine. Travel may also be hard for you. It is not easy for you to change or to accept changes. When you do enact a change, it is always at the deepest or core level and affects everything else in your life. Once a change is made, it at once becomes a part of you, solid and immovable. Those near you may feel that you inhibit the proverbial "life of the party." Code, computer programming, and the like should interest you.

*Saturn Inc Uranus*

You are very "bearish" when it comes to security and seldom make a move that does not strengthen your position. You pursue responsibilities the way others pursue pleasure, and you even invite obligations. Career moves are always solid, based on sound principles, and may be tied in with the law or authorities -- all that is solid and well-reasoned. You don't invest in anything that is not tried and tested. Truth, religion, and philosophy are subjects of great interest.

*Saturn Inc Jupiter*

You cherish whatever is different and out of the ordinary. The commonplace and the humdrum are not for you. Your friends and surroundings -- everything around you -- must be unconventional to the point of being controversial. You could care less what others think, and this independence is your passion. The way you show affection may also be unusual, and your partners are certainly nonconformist. You set a high value on being different.

*Uranus Inc Venus*

Anyone who tries to get you to play with words is in for a big surprise. Your mind cuts right

through all the window dressing and gets right down to the quick. Before anyone knows it, you have the heart of the matter out front for everyone to see. You would make a great investigator, either in scientific research or undercover work. It makes no difference. Your ability to get to the point is all but phenomenal. You can talk and put into words areas of the psychological that others wouldn't touch with a ten-foot pole.

*Pluto Inc Mercury*

## Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

## House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

### **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

*First House*

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

*Gemini*

A tendency to be eccentric and unconventional in appearance and mannerisms. Perhaps your approach to life -- the way you come on -- is unusual or different. You may be spontaneous, witty, and unpredictable.

*Uranus in First House*

### **Second House: Possessions, Reactions**

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

*Second House*

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

*Gemini*

### **Third House: Inquiries, Communications**

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally

rules short journeys, siblings.

*Third House*

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

*Cancer*

You don't waste words, and communications tend to be short and to-the-point. You are very determined and deliberate when it comes to mental work and would make an excellent researcher or scientist. You concentrate on what is essential.

*Saturn in Third House*

### **Fourth House: Home, Family, Security**

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

*Fourth House*

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

*Leo*

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity and vulnerability.

*Pluto in Fourth House*

### **Fifth House: Expression, Creativity**

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

*Fifth House*

Virgo energy is analytical and precise, always separating what is worthwhile and worth

supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

*Virgo*

You have great creative imagination, perhaps a strong sense for the dramatic and the ability to express ideas of a mystical or other-worldly flavor. Entertaining children (and adults) with enchanting stories and the like is indicated.

*Neptune in Fifth House*

### **Sixth House: Responsibility, Work, Health**

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

*Sixth House*

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

*Libra*

You always find support from others when you turn your attention to health, food, nutrition, and areas where service or attention to detail are in high focus. You may enjoy working with a group of others where you can exercise your discrimination.

*Moon in Sixth House*

A career in one of the service or health occupations is possible, for you may find yourself automatically taking care of the needs of others. Your occupation involves health, food, and all attempts to restore, salvage, and make the best out of things.

*Jupiter in Sixth House*

### **Seventh House: Relationships, Other People**

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

*Seventh House*

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

*Sagittarius*

### **Eighth House: Business Savvy, Elimination**

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

*Eighth House*

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

### **Ninth House: Religions, Philosophy, Ideas**

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

*Ninth House*

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

*Capricorn*

### **Tenth House: Practical Vision, Vocation**

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

*Tenth House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always

one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*

When it comes to business and career, you have a mind that just can't help but taking care of business. Your thoughts and ideas are nothing if not practical, and your clear-sightedness makes some form of management or supervision almost unavoidable.

*Mercury in Tenth House*

You love large-scale organization, and career or business will always be close to your heart. Your sense of discrimination when it comes to practical issues is excellent, and you value clear-headedness in others. You like to work.

*Venus in Tenth House*

You are driven to manage and control things. An urge to organize and be practical amounts to a minor obsession. Your career motivation is constant and relentless.

*Mars in Tenth House*

### **Eleventh House: Dreams & Visions, Community**

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

*Eleventh House*

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

*Pisces*

Perfect as a group leader, where your innate idealism and love for humanity can blossom. Group or community work -- anything that is altruistic or serves the common good -- is where you can be found. You strive to make your dreams and ideals real.

*Sun in Eleventh House*

### **Twelfth House: Sacrifice, Psychology, Acceptance**

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away

with a negative reaction.

*Twelfth House*

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.
