Soul Scope - Introducing Yourself To You

Above is your name, and birth details. Please check this information is correct.

Your Soul Scope symbolises and sheds light upon - your purpose, your needs, your talents, your doubts, your sensitive spots, your destiny and more.

Whilst Reading Your Soul Scope

The overall accuracy of your Soul Scope is dependent on your birth time. Please bear in mind that although this horoscope is as accurate and informative as possible, there is no guarantee that every word will apply at this moment in time, or in the past or future. This horoscope maps out your potential; it is up to you what you make of this potential. You should always rely upon your own judgement and individual choice, will and inclination - which are precisely what your Soul Scope helps shed light upon.

Below your chartwheel the 'astrological positions' of your horoscope are set out by zodiac sign and degree which are interpreted in the following twelve chapters describing what they mean in your life. The number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more powerful and significant the meaning of that aspect will be. The keys for the planets and the other symbols and terms used are given at the back of the report.

b's Chart Elements

There are four Elements in astrology: Fire, Earth, Air and Water. Each Zodiac Sign belongs to one of these, and you have each of these Elements either Over-Emphasised, Under-Emphasised or Balanced - as follows:

b's Earth Element Over-Emphasised

You are usually cautious, even to the point seeing yourself or life as boring. You can be very 'physical' and/or materialistic. You are inclined to be too predictable and habit-ridden.

To compensate, be less controlling, leave things to chance more, and make room for the unexpected. Learn to trust the Unknown. Also, look to any planetary placements in Fire and Air Signs, and make the most of them.

b's Air Element Under-Emphasised

You may find it hard to relate or view things impartially. You could be non- or even anti-intellectual.

To compensate, look to Mercury and Uranus, and if you know the time of your birth any placements in 3rd, 7th or 11th Houses, and make more of them. Identify what few, if any, planetary placements you do have in Air, and make the most of them.

b's Water Element Under-Emphasised

You can be out of touch with your own and others' feelings. You are not naturally empathetic. You may also be prone to toxicity.

To compensate, look to the Moon and Neptune, and if you know the time of your birth any placements in 4th, 8th or 12th Houses, and make more of them. Detox regularly. Identify what few, if any, planetary placements you do have in Water, and make the most of them.

b's Fire Element Balanced

You have a healthy drive without being too driven. You can amuse yourself and are easily enthused.

b's Chart Modes

There are three Modes in astrology: Cardinal, Fixed and Mutable. Each Zodiac Sign belongs to one of these, and you have these Modes either Over-Emphasised, Under-Emphasised or Balanced - as follows:

b's Mutable Mode Under-Emphasised

There is a lack of flexibility, an inclination to be one dimensional, usually expecting others to adapt.

To compensate, ascertain what it was in your past that made you so resistant to change and bending a bit.

b's Cardinal Mode Balanced

You have a healthy sense of initiative.

b's Fixed Mode Balanced

You are firm yet open to changing if need be.

The Houses designate areas of life experience upon which these energies focus.

The Aspects express how these energies dynamically interact with one another.

Chapter One - Your Ascendant: Appearance and Persona

AS in ♉

Taurus Rising

Your physical looks fall into one of two distinctive types. The more obvious one is the earthy, thick-necked, curly-haired kind who exudes a strongly physical aura - often attractive to the opposite sex. If you are the other type, you are more fine-featured, but maybe slightly fleshy in parts, full-lipped for instance. This type is also usually sexually attractive. You find your identity through seeking for yourself a sense of substance. This is usually material inasmuch as you like to own things in the form of property, investments, credit, etc. But it could also mean something purely biological, such as a having a baby - and this is particularly significant if you are a female who has not found any other meaning to her life.

On the purely earthy level of expression, you are at home with yourself while gardening or involved with Nature. You are also quite sensuous, being fond of food, drink, sex and creature comforts. Being ruled by material considerations at the expense of the more intangible or spiritual dimensions of life is an inclination you have that can lead to a sort of thick-headed confusion. If this happens, you'd then need to remind yourself that there is a hidden or psychological side to life that is equally important. What happens is that you tend to attract partners or relationships that force you to see things from this more psychological perspective, for you are not able to stabilize your intense emotions in any other way.

Stability is very important to you, so you do not entertain too broad a scope of possibilities as a rule, because you realise that this would complicate matters. You like to keep things at a manageable level. This can mean that you limit yourself unnecessarily, but limited as your field of endeavour may be, you are thorough and efficient and dependable within that field.

Venus is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Six - Your Venus Profile, with this in mind.

Chapter Two - Your Sun profile: Your Will and Purpose

Sun in Libra

Your essential purpose in life is to bring balance, justice or harmony to whatever it is in your world that you regard as important. You are naturally equipped for this in that you are only too aware of the fact that there is a right and a wrong, a rough and a smooth, a pleasant and an unpleasant, etc. etc. side to every situation and person.

It is this innate awareness of the ambiguities of life that gives rise to Libra's renowned indecisiveness. But really there is only one basic decision that you have to make. This is that you arrive consciously at a firm set of social values. This means that you have to ascertain what you think is important to society in your eyes and what you can do that will contribute to society in that respect.

Indeed, that contribution may be simply the establishing of a balanced relationship, or a balance within yourself. Anyhow, until you have begun to achieve this end, this social contribution, you will most likely vacillate between what you feel others expect of you and what you really want to do - something of which you are only partly conscious.

This in turn can lead to your being rather superficial as you use your innate sense of harmony to blend in with everything and everyone. Or, perversely, you may even be quite deliberately uncooperative as a kind of overreaction to your basic but vapid agreeability. No other Sign can draw attention to beauty and justice in such a beautiful and just way as Libra can - when you know what your pitch is.

Sun in the Sixth House

All of this is most likely to focus upon developing some kind of method or technique with which you can follow gainful employment or perform some sort of service. Without doing this it is probable that you'd suffer from unemployment or a string of aimless jobs. Your life is very much concerned with improving or preparing for something.

Initially, it is quite likely that you'll find yourself in a subordinate position where you are answerable to someone else - possibly even under their thumb. This would be because you are having to learn the importance of modesty and being in earnest. A career in health, hygiene or veterinary care could suit you well. Your own health can be quite an issue in that it is very much a barometer of your efficiency in life.

Your Sun Aspects

Sun opposed by Moon

You were born around the time of a Full Moon, which means to say that the dynamics and indications of your Sun Profile appear to run into trouble with those of your Moon Profile. Your heart and mind want one thing, while your habits and needs pull you in the opposite direction which results in your being split between say, creative opportunities and family duties, or of always having someone or something opposing your wishes or affronting your sensibilities.

Every so often, it might seem that one side of you is invalidating the other. Basically, you have the task of learning to take a back seat when things are against you and of going all out when the way is clear. Also bear in mind that others will find you hard to relate to at times, when either you appear to be living in two camps, or you blame the side of yourself that you cannot cope with upon the other people. Like it or not, you are working towards gaining a profound grasp of life's extremes, with a well-rounded personality as your reward.

Sun challenged by Saturn

You either have an unshakeable discipline about you, or an impenetrable wall around you - or both. Yours is a life where your will is having to be built and tested, tested and built some more, in order to achieve the goals described by your Sun Profile as a whole. You therefore have, or need to construct, a highly objective attitude to life situations and adopt conventionally laid down, tried and true methods in order to achieve those ends. In the process though, take yourself less seriously, or else your innate sense of duty can amount to nothing more than a lonely twenty-four-hour-a-day guard around your fragile ego.

Sun opposed by Uranus

However, in respect of much of all this you take up a decidedly radical position and aim to introduce to the world a strong sense of the original and innovative. This could well involve science and technology or metaphysics. You are heavily challenged in all the above-described areas with regard to this revolutionary stance that you adopt, especially by the more conservative elements of society, or even of your own personality.

You can be quirky and cranky (and at times downright rebellious), but you are certainly your own person. Alternatively, you could attract someone who embodies these individualistic traits, thereby forcing you to develop your own uniqueness and possibly go your own way.

Sun challenged by Pluto

Deep in the core of your being lies something profound and powerful. You may not have a particularly conscious idea of what it is, but you are not going to let anyone take it, or you, lightly. It gives, or rather burdens, you with the feeling that there is a dark force in life that could be out to get you. If you identify too closely with this notion then you are on your way to being either a megalomaniac or a self-destructive manic-depressive, or, being in the clutches of one.

If, on the other hand, you purify your own intentions and acknowledge yourself as being a steward of, or a channel for, this power then whatever you do in life will be deeply effective. But through self-study or intimate relating you have to reach your own depths first, for that is where the power lies. You may find that your father plays (or has played) some part in what could be called this power complex, with him being highly influential in your life in some way - for good or ill.

The Sabian Symbol For Your Sun

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

"A CHILD GIVING BIRDS A DRINK AT A FOUNTAIN" - The source of innocence and beauty that feeds the soul and spirit naturally and quite directly. **Keyword: TENDERNESS.** When positive, the spontaneously creative concern for the welfare and communion amongst all living things that bears witness to your own sweet soul. When negative, a naivety that appeals but does not survive the harsher realities of life.

Chapter Three - Your Moon Profile: Your Needs and Emotional Responses

Moon in Aries

Your reigning need is to be independent or out in front in some way. So you are predisposed to staying as childlike and as unattached as possible and you have a competitive soul. What you want is all-important to you - even though you may not be quite conscious of what that is! Others will find your single-mindedness either stimulating or exasperating. You run on a kind of 'battle-stations' program, operating on the assumption that a moving target is harder to hit.

This is all very exciting, but at some point you have to settle for the fact that if wish to have security you will have to make some kind of commitment. But then again, you might just go for being the eternal youth in the eternal now - and let security take care of itself. Your mixed feelings about security mainly have two things behind them: an insecure or pushy mother, or the sense that feeling too secure would dull your spontaneity and need for action.

Moon in the Twelfth House

These needs and feelings of yours are repressed. The emotional problems that you have are deeply rooted and hard to pin down. They probably go back to babyhood or as far as the womb - or even to previous lives. Your mother will somehow be tied up with all of this - in an obvious or more mysterious way.

Often psychic links with your mother are in evidence and these should be positively used by your mother meditating upon or visualizing you in a positive light, or through yourself doing likewise to the child within you. You are emotionally wounded or very sensitive, or both. Because of this you are inclined to cut off from your feelings and anything to do with them - often with cynicism or a work schedule that allows no emotional access. Consequently, a sizeable dimension of your being may get clouded or closed off from your conscious mind.

This in turn can seriously inhibit emotionally relating, and maybe some mental functions too. Yet at the same time you want emotionally feeding. If you wish some of the weight to be taken from this rather private and idiosyncratic cross you bear, at some stage you will have to own up to your feelings - acutely painful though this'll probably be.

You will then find that you are in fact remarkably in touch with the collective mood and its hopes and fears (probably what made you feel invaded in the first place), thus giving rise to creative inspiration. Initially, you can experience and express all of this as being somewhat otherworldly (or in a world of your own), or, be very much of this world and into material things, by way of compensation.

Your Moon Aspects

Moon opposed by Sun

These qualities of your Moon-Sign and Moon-House act as a deep need that has to be met by the conscious and headstrong intentions of your Sun Profile. The trouble is that your lunar inclinations will try to eclipse your solar intentions. In other words, your innate habits and dispositions may obscure your more creative view of life. You must fix your attention consciously upon some end that endures, an end to which your emotional requirements must adjust themselves. Eventually, you find that you are then far more able to meet those lunar needs, such as I have here described them.

Moon opposed by Mercury

You have a pressing need to communicate or explain these feelings. This is a good thing inasmuch as it enables you to understand how you and others tick, and consequently to interact readily with them. But when you overdo this you can lose touch with your feelings on their own level. Yet if you don't think about how you feel - or again think about it too much - then your feelings prevent you from thinking straight. Either case can also incline you to chatter on as a kind of verbal overflow for your unfelt feelings.

Obviously you need to find a balance between thinking and feeling, and between talking and listening. Merely going out and doing something can shift you into a clearer perspective.

Moon challenged by Saturn

Your better nature is certainly tried and tested by unloving or less charitable influences in your life. One of these could well have been a coldness or separation between your father and mother. Such has left you with an ingrained feeling that the world is cold and unfeeling. If you are to avoid being dogged by this negative conditioning, or being cold and unfeeling yourself, you must learn to be more objective and take life's blows a lot less personally.

Moon uniting with Uranus

Now a major theme of your emotional life is one of your becoming progressively more cool and detached about your needs and feelings. However, until you have made some headway in this respect, you are prone to definite, even violent, mood swings. This is caused by your being wrapped up in your emotions one moment, and then being icily aloof the next. Possibly you feel that your mother didn't really want or connect with you in some way, and so you zip back and forth between needing and not needing.

If you are a mother, you make an unusual one. In the meantime, no one could accuse you of being dull or of lacking intuition!

Moon challenged by Pluto

Beneath all the surface expressions of how you feel there lurks a deep distrust of human nature. This emotional seam was probably laid down long ago, in childhood, the cradle, or even before then. Other people with similarly deep-seated fears can spot this and find YOU untrustworthy.

To stop this kind of rot you need to purge such negative emotions - otherwise the power of these negative emotions will attract relationships and situations that force you to purge them anyway.

Moon challenging your Midheaven

A difficulty you have that underlies all your emotional dealings is one of not really feeling at ease with the way of the world in general. Although this could be regarded as understandable considering the state of things globally, you should bear in mind that such unease is more to do with your emotional conflict with your parents and background rather than society as a whole.

The Sabian Symbol for the Moon

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

"A MAN POSSESSED OF MORE GIFTS THAN HE CAN HOLD" - A fairly obvious case of being endowed with more than one knows what to do with - which is a perverse sort of problem in that it is one of having an excess of assets. Implied then, is the challenge to discriminate between what is of pertinent worth and what is not. **Keyword: ABUNDANCE.** When positive, your uncompromising independence and the support that it gives to others in the form of spin-offs or of simply what you do not need for yourself. When negative, incapacitated through being spoilt for choice - or being greedy for more than you can use or enjoy.

Chapter Four - Your Midheaven profile: Career and Status

MC in ♄

Capricorn at the Midheaven

Your place in the world has very much to do with the conditions and tradition in which you were brought up. There is an unconscious tendency to accept or go for your prescribed lot - be it prince or pauper, tycoon or secretary. Careers that involve the building or maintenance of any kind of structure can be suitable for you, whether it's an actual building, a corporation, or government - or dentistry.

The condition of Saturn by Sign, House and Aspect will reveal further details with regard to your professional fortunes and inclinations. (See Chapter 9) Overall, you subscribe to the traditional attitude that it is desirable to reach a position of authority through discipline and hard work.

You also have the following planet or planets culminating overhead at the time of your birth. Such planets are said to be in the Tenth House. This further describes your career, status and reputation.

See Chapter 9 - Your Saturn Profile

Chapter Five - Your Mercury Profile: Perception and Mentality

Mercury in Scorpio

Yours is the mind of the interrogator or spy. So any occupation that needs or uses this kind of delving mentality is bound for some measure of success. This particularly inclines towards psychological, research or police work. You don't miss many tricks. Your failing, however, is that you can suspect malice of intent where there is none and this can lead to mental convolutions which are almost impossible to work out or work through. It's likely that you create intrigue in order to keep your mind on its stealthy toes and this is probably okay - just as long as your own mental swordplay doesn't foil you in the process. Essentially, you have a good, sharp mind, because there's always something (or someone) that needs looking into so your mental muscle is constantly exercised.

Mercury in the Sixth House

You use these mental capabilities very well, with focus and economy. You have a knack for perceiving what's wrong with a person or situation and are able to devise or suggest methods to improve matters. Health is one area in particular where your mental powers can be successfully brought to bear but it's also possible that you're prone to overwork and nervous tension yourself. A definite health regimen and work routine would help to remedy these inclinations. Essentially you are a good worker and appreciate the true value of work.

Your Mercury Aspects

Mercury opposed by Moon

It's not easy for you to divorce your thoughts from your feelings. Trying to do so merely attracts emotional types whose irrationality drives you mad. Either the more you cling to reason the less reasonable things become, or else your own unresolved emotional issues get in the way of clear thinking. Once you have given your feelings their due and dealt with them accordingly (as described in your Moon Profile) your mental powers are released and increased.

Mercury challenged by Saturn

There is no getting away from it, the correct development and use of your mental equipment is utterly important. This means that, as time goes by, you have a more and more disciplined mind with a satisfying working life to match, or else you will become stuck as a result of inconsistent attempts to get to grips with the situation. Alternatively, your perception and interests become dulled by cynicism, or mentally depressed through dry intellectualism or learning difficulties. The formula is: work when your mind feels like working; play with it when it doesn't.

Mercury challenging your Midheaven

You have to use your mental powers to the full in order to establish, or maintain, your career position. Equally, your negative Mercury traits can get in the way of your progress in life. Your mind tends to work in a way that is different to, or in conflict with, your parents and cultural background.

Chapter Six - Your Venus Profile: Attraction and Harmony

♀ in ♍

Venus in Virgo

You are a perfectionist and critical where love and art are concerned. At its most extreme, this can find you left on the shelf. More usually though you demand - consciously or unconsciously - that your partner or other people in general subscribe to some closely defined code of demeanor and social conduct. This is really hiding some impurity, some feeling of unlovability, that exists within you.

You're afraid of showing your earthy or dirty bits. What's really curious however is that you periodically go right over the top and are decidedly dissolute and even promiscuous by way of release. Essentially you're after accepting yourself, warts and all so that then you'll be able to love and be loved without interminably checking everything. A very positive part of your nature is that you can tune in very finely to another's beauty and love needs. This also shows itself as a fine design sense if you are artistically inclined.

♀ in 5th House

Venus in the Fifth House

Your feelings of love and beauty have no trouble finding expression because you have a natural sense that they should be expressed. So you possess the usual graces of a romantically and artistically inclined soul: affectionate, lively, entertaining, attractive to the opposite sex, etc. You also like to seek out such qualities in life and others, so galleries, theatres, parties, etc. exercise a magnetic pull.

You experience all the highs and lows of love and art, for this is essentially what gives you such a vibrant sense of them. You should never let anything get in the way of expressing yourself creatively for your natural style is very real. If you have children, it shows in them too.

Your Venus Aspects

♀ ♂ ♃ ★★☆☆☆

Venus uniting with Jupiter

There should be plenty of opportunity to satisfy these appetites and predilections of yours because you have a naturally generous disposition, which life and the world are only too happy to reward. You have a sense of largesse that can attract success and enjoyment in any number of fields - both socially and professionally. Essentially, what you have is a sense of bounty and joy. This can incline you towards over-indulging in the pleasures of life, but all in all, people find you a pleasure to have in their midst.

♀ ♂ ♆ ★★★★★

Venus uniting with Neptune

When all is said and done your sense of love and art is highly evolved, or is in the process of evolving to a higher level. This does mean that you are very idealistic in your love life or where your creations are concerned. Seeking the exquisite and blissful can mean many a disillusionment as loved ones fall from grace, showing themselves to be the mere mortals that they are. Be that as it may, your refined senses serve as an inspiration to others. That you follow, or possibly excel in, some form of artistic or spiritual expression is very likely - or very important, because such is a more suitable means of giving form to your vision of a better world than being merely a hopeless romantic. In any event, love the one you are with - with all your heart and soul.

Chapter Seven - Your Mars profile: Self-Assertion and Sexual Drive

♂ in ♌

Mars in Leo

You assert yourself best when doing so for noble reasons and through creative means, which gives direction to the hot and fiery streak that runs through you. You must respect yourself for what you are doing. Without such a noble justification for your powerful push you can be arrogant and domineering.

So, you can either command respect and allegiance from others, or become increasingly involved in a battle of wills with nothing but bruised egos to show for it. Equally, and for the same reasons, the quality of your sex life can either be pleurably steamy, or a stalemate born of unyielding and precious pride.

♂ in 4th House

Mars in the Fourth House

These powers of self-assertion are somewhat unconscious, buried either by having had the actions of others overwhelm you in some way, or else it has simply never occurred to you that you had a right to get what you wanted. Your father's influence or your early sexual experiences could have contributed to, or been, the cause of this. Whatever or whoever it was could well be causing you to feel very angry, but probably unconsciously.

Left to itself, this anger could give rise to domestic strife or, at its most extreme, fires or accidents in the home. So sooner or later you have, or have had, to get out from under - possibly as a result of some emotional upheaval - and strike out for what you want and what you believe in. Such angry feelings can be released temporarily through energetic housework.

Your Mars Aspects

♂ △ ♃ ★★☆☆☆

Mars allying with Uranus

You assert yourself most readily when striving towards an ideal or in the name of a cause, especially when it involves the scientific or metaphysical and by using whatever these disciplines have to offer, your progress - and that of others - is greatly advanced and facilitated. As a result of all this, you are likely to be a leader of some kind.

♂ □ AS ★★★★★

Mars challenging your Ascendant

Your space feels threatened in some way, so you are either actively aggressive or passively aggressive in order to protect it. Whatever the case, this does nothing for your popularity as it creates or draws down strife upon you, either at work or at home and especially with men in general and in particular. Find out what and with whom your reel beef is, and work it out.

Chapter Eight - Your Jupiter profile: Faith and Understanding

♃ in ♍

Jupiter in Virgo

Your faith rests in work well done, in the sense that you are serving some plan. Without this faith it can seem that you are getting nowhere at times. Alternatively, you could scale down whatever your project is so that progress becomes more noticeable or you could give it a longer term of development.

Not surprisingly, there is more than a dash of the Puritan in you as you strive in the belief that the harder you work, the better the end product. You are health-conscious as well as conscientious - but at times you can be inordinately excessive by way of release.

♃ in 5th House

Jupiter in the Fifth House

Most of all you apply this faith to, or look for it in, your enjoyment of living life to the full through creative, speculative or romantic pursuits - or children if you have any. Your giving rein to your lust for life can lean towards the excessive, but you have the innate belief that it's only through your experiencing something to excess that will properly absorb the meaning and worth of that experience - then you'll know for sure where you stand in relationship to it.

You are a great believer that life is a play and the world is a stage - but just make sure you know who the director is!

Your Jupiter Aspects

♃ ♀ ★★☆☆☆

Jupiter uniting with Venus

Very fortunately the quality of your beliefs and ethics is appealing to most others. This is a gigantic asset for it means that something about you bears the promise of happiness, health and better things to come. I for one hope you make the most of this broad and beautiful streak of your personality. You are certainly a party person and good fun to be with.

However, for you, true joy is found through judiciously bestowing your genuinely bountiful affections upon others, rather than squandering them as if you believed that quantity could be a substitute for quality. In this way you will find that those others then truly appreciate you.

♃ ♃ ♃ ★★☆☆☆

Jupiter uniting with Neptune

All along your path of development and discovery the principles that guide you are often weakened by a tendency to think better of others than they deserve, or that life is easier than it actually is. Indeed, your capacity to give the benefit of the doubt - which is born of the Utopian ideal that everyone is kind and beautiful deep down - is a major attribute of yours. But to avoid being dangerously gullible, ponder on the fact that everything is as good, beautiful and laid-back as it is - not as you fancy it to be.

♃ △ AS ★★☆☆☆

Jupiter allying with your Ascendant

Whatever the level of your faith and enthusiasm is, it emanates from you quite easily. In response to this, others feel good and optimistic in your company. This attracts opportunity and help on both professional and personal levels.

Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

♄ in ♑

Saturn in Capricorn

You are simply learning to know your place - and this can be interpreted in two ways. Negatively expressed, 'knowing your place' can mean anything but that. In other words, you can be inclined to succumb to whatever society expects from your class, race, creed, material standing, etc. There could also be a compensatory reaction to this whereby you avoid and resist what these things demand of you or brand you as - but without actually doing your own thing either.

Alternatively, you appreciate that your place in the world is what you establish through your own efforts and then your strong streak of self-determination comes into being, along with your inherent sense of discipline and orderliness. By exploiting what business and society have to offer, rather than getting bogged down in it, you can become the archetypal self-made person.

♄ in 10th House

Saturn in the Tenth House

These lessons and necessities make themselves known in an obvious way. This is because you either feel that you must definitely amount to something in life and therefore set about pursuing your goals and dealing with the challenges of the material world, or, you feel rather weak in the face of the world at large and settle for being nobody in particular. A lot depends upon your Saturn Profile as a whole and upon your mother's influence in particular because her ambitions or fears, her confidence or doubts, got readily passed on to you.

Ultimately (and in truth) you must attempt to amount to something in this world because that is the test-bed of your life. Worldly success is supposed to be yours and could well be so - but if your ambitions are someone else's, or they've been suppressed by self-doubt, you'll have to fall or sink very low first before you understand the true meaning and importance of 'amounting to something'.

Your Saturn Aspects

♄ ☐ ☉ ★★☆☆☆

Saturn squared by Sun

These issues are central to your life as a whole. Without beginning to understand and deal with them, you are bound to feel limited or downtrodden in some way. The positive side is that when you do turn to face your own shadow or shortcomings, your bright side becomes even brighter. You stand to become an authority on overcoming fear, or on anything else which is important to you.

♄ ☐ ☾ ★★★★★

Saturn challenged by Moon

None of the demands indicated in your Saturn Profile is made any easier by the fact that fearful emotions can get in the way of your being objective about these demands. The helpless child in you collapses in the face of them, so you must get in touch with the adult in you and coolly manage the situation.

♄ ☐ ♀ ★★★★★☆

Saturn challenged by Mercury

You are learning to become mentally aware of all these matters, to talk and be rational about them. At times this can cause you to feel quite inadequate intellectually. This needn't be such a problem if you bear in mind that it's being disciplined, objective and successful concerning your Saturn Profile as a whole that enables you to think and communicate clearly, rather than just acquiring a bunch of clever phrases and concepts that weigh you down rather than bear you up.

♄ ☐ ♃ ★★☆☆☆

Saturn challenged by Uranus

There is a tremendous pressure in you to get free of all the tensions and problems that Saturn imposes upon you. But in truth, the tensions are created by you sticking rigidly with your old ways of looking at the problems. Most of all, you get stuck because you cannot accept anything (like an answer to your problems) which is not logically provable.

When you do finally adopt an alternative approach, you find that you're very efficient in crisis situations; but until then, you merely attract them. You also alternate between conventional methods and unorthodox ones until you find a useful balance between the two.

♄ ♀ ♇ ★★★★★☆

Saturn opposed by Pluto

There is a definite weight and inevitability about all these lessons and tests. It's as if the oppressive figures or situations that you encounter are heavier than average but when you pass a test, or overcome an obstacle, you become far more powerful and authoritative. This certainly takes some doing, but then these pressures or adversaries are exactly equal to your own grit and determination.

♄ ♂ MC ★★★★★

Saturn uniting with your Midheaven

Those qualities of yours, which I have described above under Saturn in the Tenth House, are strongly accentuated so I suggest that you note them as such and how they relate to the whole of your Saturn Profile.

Chapter Ten - Your Uranus Profile: Awakening and Freedom

 in 

Uranus in Aries

You belong to a generation (born during the late 1920's to mid 1930's) whose intention is to re-assert a most basic human right: the freedom to do what you want to do. Such a raw and primary impulse can give rise to the extremes of being obstreperous and reactionary at one end of the scale and at the other end, having the courage and stamina to stick to your guns as you fight to establish some new beginning in some field of human effort.

 in 12th House

Uranus in the Twelve House

Your urge for change, awakening and to be free to do your own thing is somewhat subdued. It's as if the most original and talented part of you is afraid to show itself. This is probably because at some stage in the past - even in the womb or before that - you felt ridiculed, discouraged from taking risks, or your freedom was abused or under-used. This suppressed sense of liberty can give you an acute insight into what lies at the root of inhibitions in both yourself and others but, sooner or later, you have to track down what originally held you back, re-live it and once more find your wings.

Your Uranus Aspects

   ★★★★★

Uranus opposed by Sun

At no cost do you want to be deprived of your ego's right to dance in its own light. In other words, ideals and social principles are all very well for you, but in the end you see yourself as your own rule maker and rule breaker. You are becoming increasingly conscious of the fact that the only true determinant of what life is about is you - or rather your self-awareness. You are very much ahead of your time in some ways, but be careful not to allow such living in the future to distort what's actually going on for you right now.

   ★★☆☆☆

Uranus uniting with Moon

You feel all these forces for change and liberation with such intensity that it's quite difficult for you to maintain emotional stability. It's as if you take it all personally. Remind yourself that these forces are both intelligent and are for the good of all. Cultivate coolness; be loose and open to the promise of the future and avoid tucking yourself away somewhere 'safe' because this would only attract the very upheaval you feared. Positively speaking, you should be able to reassure others when they are traumatically afflicted or stressed by changes.

   ★★☆☆☆

Uranus allying with Mars

All of these qualities appertaining to your Uranus Profile you regard, or should regard, as providing the opportunity to lead and direct others. This 'Leader of the Pack' streak is what makes sense of 'you' to yourself and whether that pack is one or many, or just your own tail-lights, you are your own person - albeit often on your own.

♃ □ ♄ ★★☆☆☆

Uranus challenged by Saturn

It has to be said that freedom is hard earned for you and that forced changes descend upon you frequently, or else you have your work cut out resisting them, which is not a good idea because it creates stress, which creates ill-health. Also, whenever you abuse freedom there is the devil to pay.

You can resolve all this by adopting a conservative attitude when restlessness (posing as freedom) threatens. Conversely, being more liberal and open to chance will relieve you - and others too - when boredom or depression begin to prevail.

♃ □ ♇ ★★★★★☆

Uranus challenged by Pluto

Life was fundamentally changed around the time of your birth owing to certain scientific advancements and social upheavals. It is very much up to you as to whether you make this into an advantage or a hindrance. If Uranus or Pluto (see Chapter Twelve) is making a number of Aspects to other planets, you may well be very much a creative or destructive part of these ongoing changes.

♃ □ MC ★★★★★☆

Uranus challenging your Midheaven

There is something in you that, consciously or unconsciously, rebels against authority, your parental and social background, or anything that smacks of limiting your freedom. This in turn causes you to be unreliable, unpredictable or bored with your work or home life. Unless you wish this disruptive and non-productive influence to continue, you will need to identify and sort out what that 'something' is.

Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

Neptune in Virgo

You belong to the Neptunian generation born between 1928 and 1943. You therefore came into being during a time when economic chaos prevailed, resulting from the prodigality of the previous Neptune in Leo generation of the Roaring Twenties. The outcome of this was that you were instilled with a rather parsimonious attitude towards life, along with a distrust of spiritual notions and wild promises of better days. Confusion over what actually constituted health, along with the first chemical contamination of food, also arose during this period. Essentially, your generation has the task of employing ideals to more practical ends.

Neptune in the Fifth House

For you, such sensitivity and yearning for something finer is very suitably and exquisitely bound up with creative expression and romantic involvement so you're likely to attract (and experience) extremes of ecstasy and sorrow as your fertile imagination has a field-day placing lovers on pedestals or feverishly striving to express some beautiful vision artistically.

Indeed, the 'Agony and the Ecstasy' are your constant companions, as they are for all romantic and creative souls. With affairs of the heart your inclination to beautify the object of your affections can certainly set you up for a fall as soon or later his or her darker, or more ordinary side stabs through the rosy veil that you have cast over them. Such great heights will inevitably be followed by great lows - and then, if you're truly loving, there can be the sweetness of appreciating that your lover is even more loveable than before; or passion could turn to compassion, the romantic into the platonic.

You certainly ought to be artistically talented considering that yours is an artistic and poetic temperament and your work will be constantly inspired and fed by the peaks and troughs created by your acute sensitivity and imagination.

If for some reason you do not pursue some art form, then this has to be because of an unsympathetic figure or factor in your life that crushed your latent abilities. If this is the case, take up art as a hobby - because your imagination is too good to waste on mere daydreaming. If you have children, they are highly sensitive or imaginative.

Your Neptune Aspects

Neptune uniting with Venus

You readily find a means of giving form to your finer feelings and more sophisticated ideas, as described by your Neptune Profile as a whole. You seek the sublime or the glamorous in the world of art or society. The sublime leads you forever on; the glamorous seductively leads you round in circles.

Neptune uniting with Jupiter

You probably take all these inclinations to extremes. You yaw back and forth between high hopes and disappointments - and so it will go on until you devise a philosophy of life that takes human failing into account as a meaningful reality rather than as something to overlook or avoid altogether. You have a big soft heart that can make dreams come true when tempered with some hard thinking.

Chapter Twelve - Your Pluto Profile: Power and Transformation

♇ in 69

Pluto in Cancer

You are a member of the Plutonian generation (1912 - 1939) that witnessed World War I and the beginnings of World War II. Essentially this was a struggle for power and omnipotence that threatened the security to which humanity had hitherto grown accustomed - and transformed our concept of personal and national security for good.

♇ in 3rd House

Pluto in the Third House

For you, any call to transformation and for depth of experience is aimed at areas of communication such as education, everyday encounters with relatives, acquaintances, etc. Indeed, such areas are usually noted for their ordinariness and so you could well play down heavier and darker emotions such as guilt, desire, phobias and the like. Or as a child, they may have been kept out of the way for you - or conversely, they may have been thrust under your nose in the form of some crisis at school, the death of a brother or sister, or something that deeply disturbed your ability to learn or communicate.

Hopefully, in time you come to really appreciate the power of thoughts and words and of seemingly commonplace everyday occurrences. This appreciation could show itself as an interest in any subject that requires deep thinking - like psychology, detective work, the transforming of your local environment through tackling pollution or informing your acquaintances of something of great importance.

If you actually use the written or spoken word to convey your deeper feelings, your writings will be aimed at altering the very way in which we look at life. In short, in one way or another, you aim to introduce a more profound intellectual tone to your surroundings.

Your Pluto Aspects

♇ □ ☉ ★★★★★☆

Pluto challenged by Sun

Your life in general revolves around these issues of power and transformation. It is important therefore that you understand quite what this entails because you can either feel filled with awe at the sheer profundity and inevitability of things, or manipulate others, or be manipulated by them as a result of getting caught up in power games and ego conflicts. Yours is either a sense of destiny or doom. It all depends whether you allow yourself to let go and be taken over by something positive or negative.

♇ □ ☾ ★★★★★☆

Pluto challenged by Moon

Your personal power and influence are checked and complicated by the negative traits of your Moon Profile and by a suspicion that something, or someone, is out to control you. This is because from the word go you absorbed the negative emotions of others, especially those of your mother. Your own intense and vehement emotional nature resented this and built up an obsessive resistance to changing your emotional disposition or domestic situation - even though you don't really like it. Sooner or later you will be called upon to confront and free these rich dark feelings once and for all.

♃ ♁ ♄ ★★★★★

Pluto opposed by Saturn

In your life transformation becomes a necessity and so does the correct use of power and influence - be it of a political, financial, psychological or sexual kind. This means that you must actually employ the power that you have and not attempt to ignore it or the responsibility that it engenders. Your duty and lesson is to make a reality of the maxim that 'power is as good or as bad as the way that it is wielded'; and wield it you must, or the darker, more destructive and domineering aspect would descend upon you.

♃ ☐ ♅ ★★★★★

Pluto challenged by Uranus

Transformation will occur in your life one way or the other. Unless you heavily suppress any opportunity for change, some kind of departure from the lifestyle and culture that you were born into is bound to occur in the context of what your Pluto Profile indicates.

♃ ♁ MC ★★★★★

Pluto opposing your Midheaven

Something about your father's influence or your early home life either gives you a profound ability to make your point verbally, or else it inhibits that very thing. Taking a deep look at this would either further empower your means of communication, or enable you to begin to unblock your mental self-doubt.
