

FACTS AND QUOTES ABOUT ASTROLOGY

"Astrology is one of the most ancient Sciences held in high esteem by the Wise and the Great. Formerly, no Prince would make War or Peace, nor any General fight in Battle--in short, no important affair was undertaken without first consulting an Astrologer." ~ Benjamin Franklin

The word "consider" means give thought to the stars.

"There shall be signs in the Sun, the Moon and the stars." ~ Luke 21:25

**"Men should take their knowledge from the Sun, the Moon and the Stars."
~ Emerson**

The word "disaster" means against the stars.

"A physician without a knowledge of astrology has no right to call himself a physician." ~ Hippocrates

"Millionaires don't use astrology; billionaires use astrology." ~ J. P. Morgan

The Pope's official chair, the Throne of Saint Peter, is inscribed with the Signs of the Zodiac.

**"The stars in the heavens sing a music if only we had ears to hear."
~ Pythagoras**

"It is clearly evident that most events of a widespread nature draw their causes from the heavens." ~ Ptolemy

**"The fact that it is possible to construct, in adequate fashion, a person's character from the data of his nativity, shows the relative validity of astrology."
~ Carl Gustav Jung**

"The universe is moved by a power which cycles endlessly from day to day. Such greatness endures for all time. As in heaven, so on earth." ~ I Ching

"The horoscope is a field of imagination and reflection not only through which we see ourselves, but by which we see through ourselves to the archetypal ground that has created this dance we call life." ~ Charles Ponce

The Mayan Calendar is based upon the Cycles of Venus.

"Every man and woman is a star." ~ Aleister Crowley

"Astrology is a science in itself and contains an illuminating body of knowledge. It taught me many things, and I am greatly indebted to it. Geophysical evidence reveals the power of the stars and the planets in relation to the terrestrial. In turn, astrology reinforces this power to some extent. This is why astrology is like a life-giving elixir to mankind." ~ Albert Einstein

"Astrology is assured of recognition from psychology, without further restrictions, because astrology represents the summation of all the psychological knowledge of antiquity." ~ Carl Jung

"Doing work which has to be done over and over again helps us recognize the natural cycles of growth and decay, or birth and death, and thus become aware of the dynamic order of the universe. "Ordinary" work, as the root meaning of the term indicates, is work that is in harmony with the order we perceive in the natural environment." ~ Fritjof Capra

"At any given moment, life is completely senseless. But viewed over a period, it seems to reveal itself as an organism existing in time, having a purpose, trending in a certain direction." ~ Aldous Huxley

"The sun and the moon are not mirrored in cloudy water. Thus the almighty cannot be mirrored in a heart that is obsessed by the idea of me and mine." ~ Ramakrishna

"All know that the drop merges into the ocean but few know that the ocean merges into the drop." ~ Kabir

**"Split the atom's heart, and lo!
Within it thou wilt find a sun." ~Persian Mystic Poem**

**"As we recognize the universe to be conscious, intelligent, alive, and all of us co-creators, what is our role? Are we not the creative edge of God? We are the universe inventing itself. And that intelligent Cosmos, or God-[it] doesn't matter which word you use as long as we agree that it's alive, intelligent, conscious, and creative-is looking through your eyes, working through your hands, walking on your feet."
~ Elisabet Sahtouris**

Reverence for life is the ethic of love expanded to embrace the universe. ~ Albert Schweitzer

**"Mindfulness refers to keeping one's consciousness alive to the present reality. It is the miracle by which we master and restore ourselves."
~ Thich Nhat Hanh**

"Every action of our lives touches on some chord that will vibrate in

eternity." ~ Edwin Hubbel Chapin

"The contemplation of celestial things will make a man both speak and think more sublimely and magnificently when he descends to human affairs."

~ Cicero

"It is the stars--the stars above us, that govern our condition."

~ William Shakespeare

"A wise man shall overrule his stars and have a greater influence upon his own content than all the constellations and planets of the firmament."

~ Jeremy Taylor

"There are about 300 million things happening in my body every second when you measure all the biochemical activities," he said. "Each cell seems to know what the other cell is doing. If it didn't, it wouldn't be able to coordinate its activities. At the same time, the body is monitoring the movement of stars. Biological movements are a function of planetary movements-circadian, seasonal, etc. There is an underlying intelligence that organizes the infinity of things happening in the Universe and connects all things with each other."

~ Deepak Chopra

"Astrology is the study of the anatomy and psychology of God."

~ Manly Hall
